Our publishing team has worked together in the premium billing / content / value added services sector since 1995, building an unrivalled reputation for producing informed, lively and commercially focused editorial.

Our media channels target any business that wishes to engage and commercialize 'connected consumers' whilst they use mobile devices and telephones to respond or interact with value added service and content propositions.

We report on how carrier billing and other alternative payment platforms continue to evolve and, in partnership with Service Providers and Aggregators - form part of a dynamic value chain that drives huge volumes of minutes, messages and traffic - worldwide.

Published in print and online, we're the essential source of news and market data for Merchants, Brands and Content Owners who want seamless micropayment solutions and engagement tools - that can immediately convert sales across the globally expanding range of media, affiliate and advertising networks.
